TABLE OF FINDINGS

Review Area	Risk/Criteria	Results	DOP Response
Evaluation Team	DOP procedures require evaluators to possess the necessary and appropriate experience needed to evaluate the proposals or offerors submitted to the city.	No findings identified	N/A
Solicitation	<ul style="list-style-type: none"> Bids shall only be evaluated on requirements and evaluation criteria outlined in the formal solicitation (DOP SOP 4.3.6.(E)(3)). Having selection criteria established in the solicitation can help prevent bid manipulation. Evaluation criteria that are too vague or subjective can allow for manipulation of the scores. 	This solicitation was previously cancelled due to bids exceeding available funds by more than five percent.	No response required
Advertisement/ Addenda	<ul style="list-style-type: none"> Changing the solicitation criteria to favor a particular proponent is a red flag of potential bid rigging (International Anti-Corruption Resource Center). Evaluation	<ul style="list-style-type: none"> • DOP procedures require procurement staff to compile the evaluation scores, including those from risk management and contract compliance. • Public procurement practice states that any arithmetical errors should be corrected, and scores should be recorded in grids/matrices (NIGP). • According to the International Anti-Corruption Resource Center, bids that are too close together (less than 1%) or too far apart (more than 20%) could be indicators of collusive bidding. 	The Office of Contract Compliance (OCC) set a DBE subcontractor availability goal of 29.37%, yet the OCC responsiveness review form included 12 of the 19 subcontractors that submitted a letter of intent (LOI), with a total participation DBE of 29.16%.	The subcontractor utilization form lists subcontractors in support of OCC participation. The letters of intent were vetted by OCC and no discrepancies were noted.
